Earn Points | Redeem & Expiry | Tiers & Automation

How customers earn points

Set the purchase rate and common bonus amounts.

Points earned for every $1 spent — On / Off — 1 pts

Points customers earn on every $1 spent

Example: Spend $10 -> Earn 10 points

New customer bonus — On / Off — 2 pts

Bonus points when a new customer creates an account

Awarded once when account is created

Friend referral bonus — On / Off — 10 pts

Bonus points when a friend joins and completes their first order

Awarded when referral condition is met

Birthday bonus — On / Off — 100 pts

Bonus points awarded on customer's birthday

Make sure birthday is set in customer profile

Product review bonus — On / Off — 1 pts

Bonus points for submitting an approved product review

Awarded once per purchased product

Daily check-in bonus — On / Off — 10 pts

Bonus points for daily check-in (once every 24 hours)

Encourage customers to check in daily

POINT REWARD ITEMS

Create rewards customers can exchange with points

Create reward-only gifts, coupons, delivery rewards, or link a store product only when the same item is sold in the shop.

Products | New Product Reward

1. Reward-only item
Use reward name, image, points, and reward stock when it is not for sale.

2. Optional store link
Attach a product only when the reward item is also sold in the shop.

3. Customer exchange
Customer spends points, then admin fulfills from redemptions.

Setup Instructions

1. Create a bot with @BotFather on Telegram
2. Copy the bot username and token into a destination below
3. For customer Telegram login: in @BotFather run /setdomain and set your public site domain (example: shadowshop.com) — no https://, no path, no port
4. Add the bot to each group you want to notify
5. Use Group Topic ID when the group uses Telegram forum topics
6. Set the webhook to /api/auth/telegram/webhook/ on your public HTTPS domain

Notification Destinations

Create different rows for orders, payments, delivery, or stock alerts.

Login Logo

Upload Login Logo

Shown on the customer login and sign-up screen. Square PNG works best.

Save Login Logo

Customer Footer

Sample English + Khmer footer menus and social icons are pre-filled. Edit labels/URLs, then click Save Customer Footer. Storefront shows Khmer when language is KH.

Social Icons

Upload a logo for each icon, set the URL, or add a custom social icon.

+ Add Social Icon
